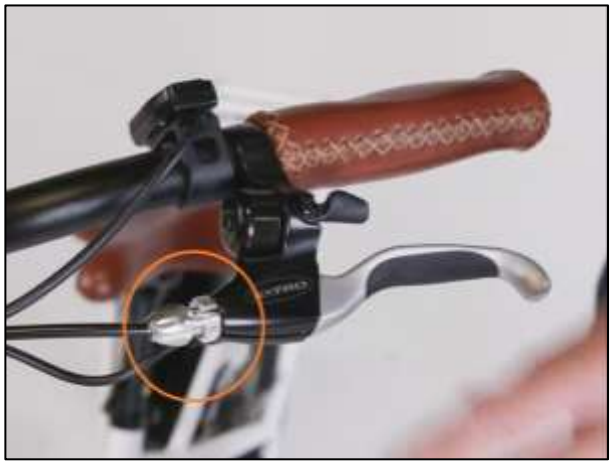
The ABC's of Bike Maintenance

Monthly bicycle service and safety checks

A Air: Add Air to the Tires

- Tires should be checked/inflated
- Inflate tires to 50-85psi
- Pump was included with system
- Maximize bike safety and performance



B Brakes: Test Brakes

- Squeeze brake levers to ensure brakes engage
- Brakes should engage before lever touches handlebar
- To adjust, rotate barrel adjuster and re-check brakes

C Charge: Smart Lock Batteries

- Replace smart lock batteries
- Test unlock each bike using On Bike Maintenance App
- System came with a charger and spare battery
